Focuses on prevention, advocacy, and restoration to assist victims of commercial sexual exploitation and domestic sex trafficking.

Helps women to transition from jail, prison and treatment centers back into the community and to empower these women to become self-sufficient by assisting them with employment opportunities and reconnecting with their families.

Provides a comprehensive, intensive outpatient treatment and recovery program for women with Opioid Use Disorder who are pregnant or postpartum. The Tides’ goal is to keep the mother and child together as they receive the care they need for recovery.
